

Blackstone Lake Fire Response

What to do in the event of a fire at your cottage?

1. **Call 911** – Seguin Fire will respond with a fire boat to Anglers Inn. Make sure you know your lake fire number or address (green number on your dock or waterfront)
2. 911 will text out to the list of responders on the lake who will respond with fire pumps if they are able
3. The list of fire pumps and responders is below fyi. If you know someone who is close contact them directly if possible or anyone on the responder list
4. Stay out of the building and wait for help to arrive. If you have a pump engage it to prevent the fire from spreading.
5. If someone is available send a boat to Anglers Inn to meet Seguin fire and guide them to your location
6. If you observe a bush fire (ie no dwellings involved) call MNR to report a forest fire at 310 FIRE (310-3473)

Blackstone Lake Fire Responders

Contacts	Cell Phone	Lake Address	Pump?	Location
