

FOODCYCLER PROGRAM – THE ARCHIPELAGO

March 2023

The Archipelago is excited to announce the partnership with Food Cycle Science to subsidize the resident purchase price of FoodCycler food waste diversion products.

Residents wishing to purchase a unit must pay at the municipal office by cash, debit, or cheque, on a first come first serve basis, limited to one unit per residential kitchen. The program is open to residents only, and pickup can take place when the payment is made. Resident information will be collected, and residents will be asked to participate in a 12-week study to measure the total waste diversion.
